Professional Summary

I'm a Full Stack Developer who loves building things that work—and scale. With a solid grip on Java, Spring Boot, and ReactJS, I've built and deployed SmileCart, a complete e-commerce platform where I handled everything from REST APIs to Docker containerization. Currently pursuing an MBA because I don't just want to write code; I want to build products that solve real business problems and create impact.

Education

Full stack JAVA developer

Xplore IT corp., Coimbatore (April 2025 – August 2025)

Master of Business Administration (Human Resources and Marketing)

Sri Ramakrishna College of Arts and Science, Coimbatore (2024 - 2026)
